- **DWELL TIME** of customers in the areas of the store
- **HEATMAP**

## TESTIMONIALS

*We were highly recommended the installation of the Sensmax customer counters and Product Me software by another retailer who was very happy with the product and also the after-sales support given. Based on this feedback we decided to install at our Chrysanthou Shoe stores also. A few months on we can also confirm that we are very happy with the product and support service. GloveTech is a very responsive, highly efficient, and quality company to work with*

**Christos Chrysanthou - Chrysanthou Shoes**  
Operations Manager

*We have been working with the Product.me platform through Webinhouse their Cyprus distributor, for just over two years now. Product.me has indeed revolutionized our in-house digital signage, making life much easier for both our creative team and our operations staff. We are currently using Product.me over 8 devices ranging from 15" to 24" Android displays right up to 55" Samsung displays running through Raspberry Pi.*

*All have worked trouble free continuously giving us great control over our signage and messaging to our hotel guests. I would not hesitate to recommend Product.me for hotel use!"*

**Nick Aristou - Four Seasons Hotel**  
Executive Director

*Product Me is a user-friendly program. No need for complicated long manuals or how-to tutorials. Just upload the content you want into your library and then drag and drop it into where you want it to appear.*

*Technical support is always there to help out with any issues that may arise and are always available when you contact them, whether it be a weekday or a weekend.*

**Gina Kyriakides - Beauty Line**  
Senior Operational Marketing Officer

*We have developed a great partnership with Panayiotis & GloveTech Cyprus. The team is dedicated to provide their best service at any given time. They are always friendly and responsive to all our requirements with the Product Me Service.*

**Christiana Potsidou - ERA Department Stores**  
Senior Marketing Officer

*We cooperated with GloveTech (Cyprus) Ltd to procure and install interactive informative screens in the Mall of Cyprus. GloveTech was very responsive to understanding the objectives and requirements that we had, and to proposing the relevant solutions to tailor the screen software accordingly. Following the operation of the screens, the response time for troubleshooting has been excellent, with GloveTech demonstrating commitment to resolving the issues and ensuring the proper operation of our screens.*
